# ANJUMAN E JAMALI NC - RALEIGH MARKAZ

**PROJECT UPDATE: NEWSLETTER - EDITION 01**

### WEEKLY PROJECT UPDATE SERIES

With the Dua Mubarak Aqa Maula (T.U.S.) and following the auspicious occasion of the Urus Mubarak of Syedna Mohammed Burhanuddin (R.A.), we are pleased to launch the Raleigh Markaz Project Update Series.

This weekly newsletter will share the latest updates, progress, photographs, and noteworthy developments from the Raleigh Markaz, Madrasa, and Darul Imarat Ta'ameer Project.

## ➢ KEY CONSTRUCTION UPDATES THIS WEEK

### CITY OF RALEIGH - PERMITS APPROVED

All required permit approvals from the Authorities Having Jurisdiction (AHJs) have now been received, marking a major milestone, and clearing the way for the project to advance through construction.

### CONSTRUCTION IN FULL SWING

Construction activities continue across the project, with significant progress on subsurface excavation, utility installation, grading, and site preparation, moving us steadily toward completion of the site work and the next major construction milestones.

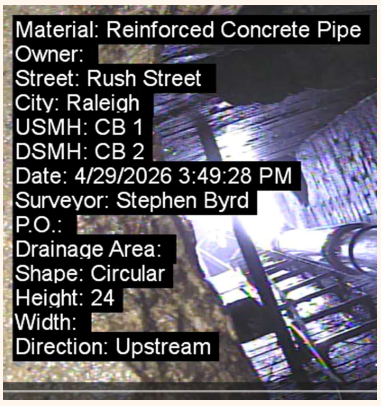

## ➢ CHALLENGE OVERCOME

### STORMWATER DRAIN INVESTIGATION & RESOLUTION

During excavation, an unmarked stormwater drain was discovered approximately 25 feet below grade. An IBAK PANORAMO SI, a specialized high-resolution sewer inspection system that provides a detailed 360° view inside underground piping, was used to investigate the drain and confirm it had been abandoned. The team then properly deactivated and permanently closed the drain, allowing site work to safely proceed.

## ➢ MILESTONE ACHIEVED

With the permitting process complete and construction steadily advancing, the Raleigh Markaz Project has reached an important milestone.

All required permits and approvals from the Authorities Having Jurisdiction (AHJs) have now been secured, allowing the project to proceed through the remaining phases of construction. This represents the culmination of extensive planning, design coordination, reviews, and approvals required to bring the Markaz from concept into construction.

With each milestone achieved, we move closer to the day when, with the Dua Mubarak of Aqa Maula (TUS), the doors of our Markaz will open to serve Mumineen and future generations, Insha'Allah.

## ➢ DUA UPDATE

As construction continues and we move closer to realizing the vision of our Raleigh Markaz, we humbly request Dua Mubarak for the successful and timely completion of the project.

May Allah Ta'ala, through the Dua Mubarak of Aqa Maula (TUS), grant barakat in every stage of this project, and guide all those involved, and make our Markaz a lasting source of khair, barakat, ilm, ibadat, and khidmat for Mumineen and generations to come.

All Mumineen are requested to join and update the Dua group: **Join Markaz - Dua and Quran group**

## ➢ MORE UPDATES TO FOLLOW

Each week, we will continue to share the latest construction progress, photos from the site, milestones achieved, challenges overcome, and key project developments, along with Dua and community updates as we collectively follow the journey of our Raleigh Markaz from construction to completion.

## ➢ SNAPSHOTS FROM THE FIELD

## ➢ MOMENTS FROM OUR JOURNEY- MARKAZ RASMI TA'ASEES

As many of us may remember, the Khushi Darees, and the Rasmi Ta'asees on our land was a truly memorable and auspicious occasion for the Raleigh Jamat. As we now move closer toward completion, we would like to revisit that special moment.

## TOGETHER, CLOSER TO OUR MARKAZ

As we continue progressing toward completion of the Raleigh Markaz Project, preparations are advancing across multiple fronts, with construction, interiors, operations, and community planning moving forward in parallel.

**More updates on these efforts will be shared in our upcoming newsletters.**

Update Release Date: **01 September 2026 | 20 Rabi-ul-Awwal 1448H**
